510
Initiate Stimulation at a Predetermined Time of Day
512
Provide Stimulation for a Predetermined Time
514
Optionally Utilize Sensed Physiological Parameters to Control Length of Stimulation
516
Terminate Stimulation and Notify Patient that Protection has been provided

Figure 6B

C 520
Activate Trigger in
Activate Trigger in Anticipation of Physical activity
522
Specify Parameters (eg. activity level & duration)
_524
Provide Stimulation for
a predetermined time
526
Optionally monitor patient to determine if desired level of
Cardio Protection was received
528
Provide indication that
activity may be initiated
530
Optionally Provide Stimulation throughout activity
